V. **The Spirit of Oklahoma's Youth – Hannah Ketring**, Student – Oklahoma Christian University representing the winners of the OK Ethics Statewide Student Ethics Challenge.

*The Women's Fancy Shawl Dance is a relatively new style of dance for Native women, originating in the northern United States in the 1950's or 1960's. There are many stories retelling the origin of this style; one story relates this dance to the butterfly world. The story goes that there was a beautiful butterfly that lost her mate in battle. Upon hearing the news of her mate's death, the butterfly retreated to her cocoon for a period of mourning. Over time, the butterfly came to realize that although her mate was no longer with her in this world, he would still want her to enjoy life and all the experiences it has to offer. The butterfly knew that her mate would not want her to live her life in sorrow, but in joy; in celebration and remembrance of the time they shared together. Upon this realization, the butterfly emerged from her cocoon and began to do a beautiful dance, a dance that celebrated life in all its vibrancy. This dance is known as the "Butterfly" dance, or the Fancy Shawl Dance.*

LIEUTENANT GOVERNOR TODD LAMB

Oklahoma elected Todd Lamb as Lieutenant Governor on November 2, 2010. With a campaign focused on job growth and economic development, Lieutenant Governor Lamb achieved an overwhelming victory and quickly began putting his forward-thinking ideas and agenda in place. He was appointed to the Governor's cabinet as the advocate for Oklahoma's small business.

An Enid native, Lamb played football at Louisiana Tech University, then returned to Oklahoma earning his bachelor's degree from Oklahoma State University and his law degree from Oklahoma City University School of Law.

In 1993, Todd Lamb worked on the campaign staff of gubernatorial candidate Frank Keating. Upon Keating's election, Lamb worked alongside the Governor for four years. During his time in the Governor's office, Lamb traveled to all of Oklahoma's 77 counties, almost half of the United States, and 2 foreign countries promoting Governor Keating's pro-growth economic agenda. Lamb served in the Keating Administration from 1994 until 1998.

In 1998, Todd Lamb became a Special Agent with the United States Secret Service. He was elected president of his Secret Service Academy class and graduated with special recognition. During his U.S. Secret Service tenure, Lamb investigated and made

numerous arrests in the areas of counterfeiting, bank fraud, threats against the President, and identity theft. His duties included domestic and international protection assignments during the Clinton and George W. Bush administrations. In 2000, Lamb was a site supervisor for George W. Bush's presidential campaign. In early 2001, he was appointed to the national Joint Terrorism Task Force, where he received training and briefings at the CIA, FBI, and Secret Service headquarters in Washington, D.C. After the terrorists' attacks, he was assigned to portions of the 9-11 investigation.

Lieutenant Governor Todd Lamb was elected to his first term in the Oklahoma Senate on November 2, 2004 by the voters of Senate district 47 representing NW Oklahoma City and Edmond. Lamb was re-elected without opposition in 2008.

In 2009, Lamb became the first Republican Majority Floor Leader in state history. He has worked as a landman in Oklahoma's energy industry, and in addition to his Senate service, was General Counsel for an energy and wireless company in Edmond, Oklahoma.

Lieutenant Governor Lamb currently serves as Chair of the National Lieutenant Governor's Association (NLGA) Executive Committee and Vice Chair of the Aerospace States Association (ASA).

BELLA FORTE

I don't think you can describe the Spirit of Oklahoma without addressing the significance that our trust in God and adherence to His Word has played in the development of this great state and the people who have worked and sacrificed to make us what we are today. We have survived and grown through the Great Depression, Dust Bowl, multiple droughts, horrendous storms, tragedies, and many economic troubles. We don't have the great majestic scenery of the Rocky Mountains, the white tropical beaches of other locales, or an average daily temperature of 72 degrees, but we consistently find ourselves at the top of list as some of the best, safest, and most economically sound places to live in the United States. As a whole, I believe our reliance on God has brought us through many and great difficulties. We are called the "Buckle" of the Bible Belt for good reason.

Our Redento Raffinato vases tell the same kind of story. "Redento" is an Italian word that means "Redeemed". "Raffinato" means "Elegance". Redento Raffinato means Redeemed Elegance. These vases are made from broken or discarded pieces. We then take those broken pieces and "redeem" them from the destiny, that they were headed. They were headed for the trash and ultimately the city dump. In much the same manner, Christ has "redeemed" the broken pieces

of our lives and made something elegant out of us, if we let him. Likewise, God has helped Oklahoma overcome many obstacles we have faced. He has helped us pick up the broken pieces of our tragedies, mistakes, and occasional wrong-doings. As Oklahomans have relied on him, it has benefited our state as a whole.

**The color "Blue" in this Redento Raffinato, symbolizes the Spirit Of Oklahoma in that, blue symbolizes optimism, depth, and stability. Blue, symbolizes the color and depth of the ocean. It also is the color of e sky. The "Sky" is our limit!**

When you look at the Redento Raffinato, you can't help but see the many layers of depth and complexity in each piece. Likewise, the things that have made Oklahoma a great state are the many layers and depth of character and talents that Oklahomans have made a part of their lives and in their business dealings. When you stand back and look at the Redento Raffinato, you will notice the tip rising majestically from the body of the vase. The tall, graceful tip is elegant. The Redento Raffinato wouldn't be the same without it. It signifies reaching for greater heights, reaching for something more, reaching for the future! That's what we do in Oklahoma. We are not asking for handouts, we are reaching and climbing upward for the blessings that we can achieve through hard work, character and the providence of God. Also, looking at the Redento Raffinato, not only do you notice the lofty, elegant tip at the top of the vase; at the opposite end, you will notice a dignified elegant base. The base is small, compared to the height of the vase; however, it is a solid foundation. It reminds us of how important it is to stay "centered" on the correct things. If we lose sight of the things that brought us to where we are at, if we get off center, we could easily fall. Therefore we stay focused on the good values that have brought us this far. We stand proud (in a humble sort-of-way), strong, determined, reaching for greater heights, not forgetting the qualities and foundations that has caused us to be where we are today.

That, I believe represents the true "Spirit of Oklahoma"!
